

Sprint 2 Report

Product Name: LiveColor

Team Name: Harmony

November 3rd, 2019

Actions to stop doing:

- Getting blackouts from PG&E (please).

Actions to start doing:

- Pull, Commit, Push, and Merge more often so that everyone can stay up to date with project files.
- Pull requests possibly (requires a bit of overhead).
- More thorough commenting/documentation to keep everyone in-the-know about the happenings throughout the project.

Action to keep doing:

- Team should keep learning android as we go, since there's always something new that we won't know how to do.

Work completed:

- All user stories for sprint 2 were completed, and the main Color Picker Fragment is fully functional. User can upload images directly from their camera or from their gallery, and then pick colors from said image. The RGB, HEX, and HSV of the color they have picked will display on the screen.

Work not completed:

- Learning Android Studio, always something new we will have to pick up along the way

Work completion rate:

- Number of user stories completed: 3
- Number of estimated ideal work hours completed: 20
- Number of days in sprint: 14 days
- Average user stories per day (all sprints): $3/14$, (0.21)
- Average ideal work hours per day (all sprints): $(17+20)/28 = 1.32$
