Sprint 1 Plan

Product Name: LiveColor
Team Name: Harmony
Release Name and Date: Release 1, 2019-10-20
Revision Number: 1.0

Goal

Create an app with basic features to enable further development. Get members up to speed on all development tools that we will be using for the project.

User Story 1

As a general user, I want an application with a simple yet visually pleasing UI.
- Task 1: (Infrastructure) Github and Project setup (1 hr)
- Task 2: (Infrastructure) Learning how to use Android Studio (6 hrs)
- Task 3: Designing the UI (5 hrs)

User Story 2

As a traditional artist, I want to be able to use my camera and gallery to observe colors of what I am drawing, and have easier reference of what colors I need.
- Task 1: Set up Main Activity (1 hr)
- Task 2: Set up permissions for camera and photo/gallery access. (1 hr)
- Task 3: Display Camera and Gallery View on Main Activity (3 hrs)

Team members
Paige Riola: Product Owner, Designer, Developer
Andrew Tran: SCRUM Master, Developer
Gabriella Lindsey: Developer
Melanie Wong: Developer
Dustin Seltz: Developer
